Associate Editor, *CompositesWorld*

*CompositesWorld* is pleased to announce this year's CW Top Shops, the 10 composites fabricating facilities that have been designated as the top-performing facilities through CW's annual Top Shops benchmarking survey program.

This year marks the third year for CW Top Shops, which is conducted through Gardner Intelligence and offers participating composites fabricators a detailed, custom report that puts various metrics of their operations into perspective compared with other facilities.

More information about this year's metrics, and profiles on many of this year's Top Shops will be featured in the upcoming November issue of *CompositesWorld*.

The companies are listed below in alphabetical order:

- Arisawa Mfg. Co. Ltd. (Joetsu, Japan)
- B&T Composites (Florina, Greece)
- Bucci Composites (Faenza, Italy)
- Cecence Ltd. (Salisbury, U.K.)
- Champion Fiberglass Inc. (Spring, Texas, U.S.)
- EPP Composites (Rajkot, India)
- GSE Dynamics Inc. (Hauppauge, N.Y., U.S.)
- The Gund Co. (St. Louis, Mo., U.S.)
- Oribi Manufacturing (Commerce City, Colo., U.S.)
- Prathamesh Industries (Ahmednagar, India)

“Fabricating composite parts and structures is challenging, and fabricating them well is the hallmark of an operation that is well-managed, well-organized and well-run. Congratulations to all of the 2021 CW Top Shops, and we look forward to your participation in the 2022 survey,” says Jeff Sloan, CW editor-in-chief.

For more information on CW Top Shops, visit Gardner Intelligence's website. CW Top Shops is also part of Top Shops Expo, a new event focusing on delivering supply chain solutions for manufacturing through an open exhibition, education and networking, to take place Oct. 12-14, 2021, in Cincinnati, Ohio, U.S. Find out more at [topshopsexpo.com](#).

Stay tuned for the 2022 survey, which will be launched early next year.
